## **PARTICIPANT INFORMATION STATEMENT**

### **Generalization in Humans**

#### **Participant Selection and Purpose of Study**

You are invited to participate in a study of generalization in humans. We hope to learn the theoretical processes underlying learning and generalization in humans. You were selected as a possible participant in this study because you responded to an advertisement on the Mechanical Turk website.

#### **Description of Study and Risks**

If you decide to participate, you will complete a computer task where you will be presented with various stimuli and outcomes, and asked to make judgements and predictions concerning those stimuli and outcomes. Afterwards, you will be asked to complete a questionnaire which asks you about the rules and strategies you used throughout the task.

No risks are reasonably expected as a result of your participation in this study.

We cannot and do not guarantee or promise that you will receive any benefits from this study.

#### **Confidentiality and Disclosure of Information**

Any information that is obtained in connection with this study and that can be identified with you will remain confidential and will be disclosed only with your permission or except as required by law. If you give us your permission by clicking the 'I Agree' button, we plan to present the results in academic journals and at conferences. In any publication, information will be provided in such a way that you cannot be identified.

#### **Recompense to participants**

Participants will receive remuneration to the equivalent of USD \$10/hour. The exact amount of money received will depend on the expected completion time of the task.

#### **Your consent**

Your decision whether or not to participate will not prejudice your future relations with The University of New South Wales. If you decide to participate, you are free to withdraw your consent and to discontinue participation at any time without prejudice.

#### **Inquiries**

If you have any questions or concerns following your participation, Jessica Lee ([jessica.lee@unsw.edu.au](mailto:jessica.lee@unsw.edu.au)) will be happy to address them. Complaints may be directed to UNSW's [Research Ethics & Compliance Support](#), email. [humanethics@unsw.edu.au](mailto:humanethics@unsw.edu.au).

Please keep this information sheet.
